

## Document tamperproof label

### Product specification:

#### Mechanical dimensions

Antenna width	26,5mm
Antenna length	46,2mm
Die-cut width	35mm
Die-cut length	55mm
Tag antenna material	Silver paste
Pitch	8mm
Register mark	3x8mm printed on the bottom side of silicon liner

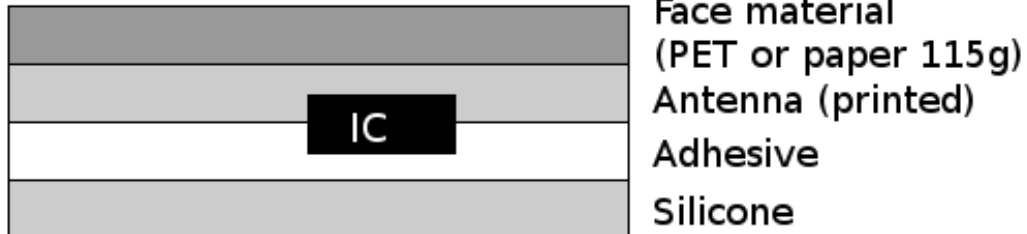

#### Electrical characteristics

Integrated Circuit	NXP G2iL
IC's protocol	EPC Class 1 Gen 2
Operation frequency	860-960 MHz
EPC memory	128 bit

## General characteristics of transponder

Operating temperature	-40 °C up to +85 °C
ESD voltage immunity	± 2kV
READ sensitivity	-18dBm

## Structure

## Delivery details

Appearance	Single row reel form
Reel core	Card board core, inner diameter 76mm
Winding of the reel	Face out
